

## Inside Technical Sales Support

Eupen / teleworking

### Your mission

- Together with the sales engineer, you are responsible for developing technical concepts for a wide range of automation projects
- You support your sales colleagues in :
  - specifying optimal solutions that meet customer's needs
  - preparing, creating and monitoring technical and commercial quotations
  - supporting marketing policy of the company
  - communicating and enquiring suppliers and subcontractors, etc. ...
- You find technical solutions to the questions of your colleagues of the sales department, clients...
- You prepare new concepts of automation lines, using 3D visualization software

### Your profile

- Minimum a bachelor degree in Engineering
- Strong technical skills and basic knowledge of automation principles
- Knowledge of computer literacy and a 3D CAD software (preferably Autodesk Inventor)
- You are fluent in English (knowledge of German, Dutch and French are an asset)
- You have a collaborative and solution-focused approach, with strong written and spoken communication skills
- You have an inquisitive mind to carry out your projects with the necessary initiative and dynamism
- You are looking for a new challenge and have a real passion for innovation and technology

### We offer

- A job that allows initiative and development, thanks to the concept of « collective intelligence » work organisation
- 35 days off
- Luncheon vouchers
- Bonus in the company's profits
- Group and hospitalisation insurance
- Training and teleworking opportunities
